

"At Last You Can Eliminate Hair Removal Woes!"

Kalō™ Hair Growth Inhibitor

Kalō™ from Nisim™ International, is a **revolutionary hair inhibitor** which keeps unwanted hair from growing back.

The **aqueous spray mist** is ideal for large areas like legs and backs, and the **soothing lotion** is ideal for smaller areas like the face and bikini line.

This proprietary formula works directly in the follicle, neutralizing the key elements necessary for hair to grow, without damaging skin tissue or causing irritation.

Tested for five years before its debut in 1997, Kalō™ has a soothing, gentle feel that contrasts with the pain and skin irritation caused by electrolysis, waxing, laser or depilatories.

Kalō™ involves no gadgets, applicators, or special tools.

Available without prescription - unlike Vaniqa™!

Who Can Use It

Men and women, even children.

Simply use **Kalō™** in conjunction with your regular hair removal method.

Fastest results are seen when used after waxing, sugaring, Nad's, tweezing and threading.

Kalō™ will also reduce the frequency of **shaving**, even the number of times a man has to shave facial hair.

Kalō™ is good as a follow up after **electrolysis** or **laser** treatment. It ensures that stray hairs, or the percentage of hairs not reached by the electrolysis or laser, start to disappear.

What Others Say

Deb Pratt from Reflections Salon, Coralville, IA, felt skeptical. She probably represents many who feel the same way. However, notice what she discovered after using Kalō™:

"I was skeptical at first, until I tried Kalō™ on myself. After using Kalō™ with my last two leg waxings I was amazed as to the dramatic reduction of hair growth.

I now am confident retailing Kalō™ to my waxing clients because I have seen remarkable results. This product truly is a dream come true."

Kalō is produced by **Nisim International**, leaders in the science of hair for the last 20 years!
